CARDS

This is the correct sequence of the cards for this tutorial:

Save and Share
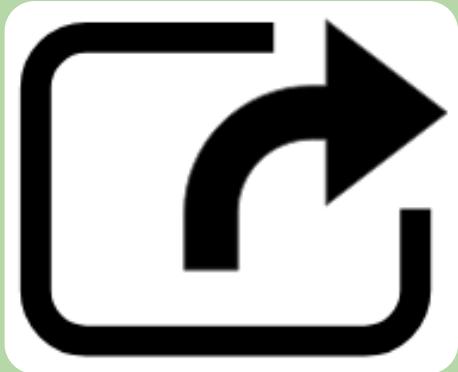

In this tutorial, you will learn how to save and share your finished designs on your mobile device.

For this, you will need a completed embroidery design that you want to export. If you don't have one yet, feel free to get inspired by our embroidery tutorials!

Save and Share
You can save and share your designs.

1 Start your project and wait until it is fully unfolded. Otherwise the pattern will be incomplete.

2 Tap back and press the share button.

Embroidery

Back Restart Resume Preview Axes on

3 Share your embroidery-file via e-mail or save it to your phone.

Cancel

The share-function may look slightly different on every phone.
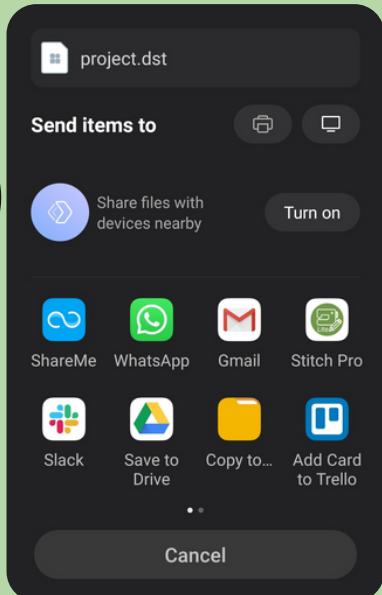

Your embroidery-design will be saved as DST-file. The embroidery machine knows this file format and completes your design on your fabric.
